

Education and Certifications

Universidad APEC (UNAPEC)

Software Engineering (11th semester)

Software project management, architecture, requirements analysis, agile methodologies.

Santo Domingo, Rep. Dom.

05/2022 – 08/2026

Instituto Tecnológico de las Américas (ITLA)

Software Development Technologist

Web, mobile, and desktop programming, databases, design patterns.

Santo Domingo, Rep. Dom.

01/2019 – 12/2021

ISTQB Certified Tester Foundation Level (CTFL 4.0)

04/2025

Cybersecurity Fundamentals (UNAPEC)

05/2026

Work Experience

Grupo Ramos

Santo Domingo, Rep. Dom.

Quality Assurance Senior

10/2025 – Present

- Design quality strategies and standards to ensure stable and reliable software deliveries.
- Develop, execute, and maintain automated tests to validate critical functionalities.
- Perform functional and technical validations, identifying risks at early stages.
- Optimize processes through continuous improvements in methodologies and tools.
- Document key metrics and findings to ensure successful deployments.

Grupo VOPM

Santo Domingo, Rep. Dom.

Web Developer

05/2021 – 10/2025

- Develop backend features with PHP and frontend with JavaScript/jQuery, applying best practices for robust and scalable solutions.
- Work with MySQL for database modeling, querying, and maintenance.
- Use Docker to ensure consistent and reproducible environments.
- Participate in SCRUM cycles, tracking tasks and bugs in Jira.

QA Automation Engineer

06/2023 – 10/2025

- Create and maintain automated tests with Cypress (E2E, API, parallelism).
- Execute functional tests with MySQL validations and geolocation.
- Implement web scraping with Selenium/Python and Playwright.
- Conduct performance tests with JMeter and document findings.

Laboriosos

Santo Domingo, Rep. Dom.

Backend Developer

09/2024 – 10/2025

- Migrate the platform to Laravel 11 applying Clean Code and Repository Pattern.
- Develop backend features and maintain modular architecture.
- Manage MariaDB and server maintenance.
- Integrate real-time messaging, Google Analytics.

Skills and Interests

Technical: Agile - Scrum - Kanban, JavaScript/TypeScript, PHP - Laravel, HTML - CSS - SASS, SQL - MySQL, Git - Docker, Kubernetes, Cloud Basis, Automated and manual testing (Cypress - JMeter - Postman – Playwright – Katalon), Clean Code, JIRA, Azure DevOps, Confluence.

Languages: Spanish (Native), English (Intermediate/Oral/Written)

Interests: Spending time with loved ones, traveling/hiking to natural sites, playing piano, watching movies.
